DRIGGS' NEW PATENT.

ARE THE ONLY INSTRUMENTS constructed on a truly scientific principle. They have greater strength, and will remain longer in Tune than any other Piano. The construction is simple and natural; all the extraneous lumber in the body of the instrument is dispensed with; the sound-boards are merely two arched planks of thin wood, like the front and back of a violin; the strings are attached to a strong Iron frame, which is separated and entirely independent of the case, thereby dis
States, and to this end we offer to send it, enpensing with the old harp form of stringing, by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Mr. Dances is the Inventor. By these improvements we gain much more vibratory power, at the control of the c the same time preserving all its purity and

They have received the highest testimonials from the Press, and all the principal Artists in the country, among whom are:

HARRY SANDERSON. L. M. GOTTSCHALK, MAX MARETZEK, S. THALBERG, THEODORE EISFIELD, WM. MASON, HERMAN WOLLENHAUPT, A. BARILI, M. STRACKOSCH. FRANCIS H. BROWN.

WM. HENRY FRY.

CHAS. FRADEL. Mr. SEGERMUND THALBERG, the great planist, eavs:-"I have examined your new Pianoforte, and I cordially approve of its system of construction-its principle, by which great increase of vibratory power is obtained, being very simple and perfectly philosophical. The tone is grand and noble; it has great capacity for sustaining the sound of singing, and its volume of tone or power I have never heard excelled in depth, purity, and sympathetic

WM. HENRY FRY, late Musical Critic of the N. Y. Tribune, says:-" I have examined your newly invented Piano-Fortes. They merit all the praise given to them by Messrs. Thalberg, Gottschalk, Strackosch, Mason, and others. As regards structure, they are original and philosophical; in purity, volume, and continuity of tone; in vocal versimilitude, that crowning excellence which enables the pianist to 'sing' on the instrument, your Pianos ever deserve the highest rank. Your invention, in my opinion, is destined to work radical changes in the manufacture of Pianos throughout the world."

From the N. Y. Herald, Sept. 5 .- "Upon a careful examination of Driggs' Piano-Forte, we find the results obtained are a very fine singing tone; great purity and brilliancy throughout the entire instrument, not often found in Pianos constructed upon the old plan."

The N. Y. Times, July 12, says:-"We have now an instrument without an equal. It can sing with a smooth delicacy, perfectly unattainable on any other instrument; an ordinary player obtains, with no exertion, the fullness of a Grand Piano Forte, and they must speedily supersede the old styles."

GENTLEMEN:-Having thoroughly examined and tested the Piano-Fortes invented and patented by Mr. S. B. Driggs, I am of the opinio: that the tone resulting from his improvements, as exhibited in the instruments under examination, in point of richness, depth and brillianser to what I consider perfection in the instrument than has yet been achieved by any other system of manufacture.

Yours, respectfully, L. M. GOTTSCHALK.

UNITED STATES JOURNAL. Volume Eleventh.

This popular Journal, which was incorporated with The Working Farmer at the beginning cy, equals that of the best Grand Piano-Fortes, of the war, we propose to again publish, on the and excels them in pure, musical intonation and actual tone and power, thus approximating cloture in the instead of January, 1866, in a separate form. It will be issued every week, and devoted to Family as well as Agricultural reading. Each At least eight large folio pages, more than twice the size of those of The Working Parmer, will be filled with the best articles and items on Agriculture, Horticulture, Floriculture, Landscape Gardening, The News, etc., and thus those rural readers, who are impatient with the infrequent visits of our mouthly magazine, will be supplied every week with the latest agricultural matter, the Prices Current, the news of the day, besides full reports of the de bates of the American Institute Farmers' Clul and the literary contents, which will render the Journal invaluable to the household. It will supply a place which is not filled by any paper published in the Empire City. published in the Empire City, and we solicit from the public the liberal patronage which it will be our assiduous care to merit.

It will likewise be our aim to chronicle all new inventions and imp ovements in the appli-ances of Agriculture, and present in our columns engravings of such machines and implements as promise to be permanently valuable.

TERMS—\$2.50 per annum; \$2.00 in clubs of 10 or more Single numbers, 6 cents. Speci-

PREMIUMS -Our terms to Canvassers for the Juited States Journal will be the same as to those of the Working Farmer, and sub-

tions for either paper will be counted in the number required for the Premiums offered in the above table. Address the publishers.

WOOL Carding & Manufacturing! SAMUEL WATSON & SONS.

OREGON, MO., WOULD respectfully announce that they are prepared to Card and Spin Wool at the shortest netice; and to Weave, Full and Finish Cloth in the best style, and at the low-

THESE pumps have now been in general use a number of years, and give better satisfaction than any other, and are recommended as

THE BEST!

by Capt. Erricson, and other eminent Engineers We can refer to thousands using them, and guarantee that all will recommend them.—
They are more simple in construction, and
work easier, and cost less than all others.

"Our readers will find the double-acting im proved Pump of J. D. West & Co., one of the proved Pump of J. D. West & Co., one of the best in the market. It is very simple, works to a charm, so that any child may use it; throws a steady, continuous stream, and does not freeze in the coldest exposures, and is unusually cheap. We say this knowingly, and give the testimony of our own accord, without the knowledge or request of the proprietors."—
N. Y. Eve. Past, July 1st, 1863.

This may certify that I have been using, at my manufactory, for the last four years, "West's Improved Pumps." I now have in use three of said pumps, one of which is kept constantly at work, 24 hours each day, (save Sundays) and has been running for the past two years. I pronounce them, unhesitatingly, the best pumps that have been brought to my notice, having used many others previously. They are simple in their construction, and not easily disarranged.

N. V. Oct. 10, 1859. This may certify that I have been using, at easily disarranged. N. Y., Oct. 10, 1859.

. D. WEST & Co.: We are pleased to state that the Pumps we We are pleased to state that the Pumps we had of you, about a year ago, have been in constant use, 12 hours each day, and raise for the use of our Woolen Factory, about 130 gallons per minute. They work with but little power, compared with pumps we lave used before, and do not get out of repair, and are satisfactory in all respects. Yours, &c.,

DUNLAR MANUFACTURING COMPANY.

Solon Rominson to the Farmer's Club, Jan. 23: "No farmer who owns a well or cistern can possibly afford to be without an iron pump. It should be at once a suction and force pump—a pump because I happen to know it ... to be very simple, durable, powerful and cheap, and it don't freeze up, nor get out of order once a year ... I know this, and think I may be doing the farmers good by speaking of it. ... A boy 10 years old can work it, and throw a continuous inch-and-a-quarter stream. perfect little fire engine-such a one known as ous inch-and-a-quarter stream. . . . It can be made to work in deep wells as well as in shallow ones.'

[From the New York Observer.] We have had in use for months past one of We have had in use for months past one of West's Pumps, which has given us more satisfaction as a force and lifting pump than any we have ever used. It is one of great power, and well adapted for ship's decks, mines, factories, green-houses, graperies, &c., &c. The Mining Chroniele and Railway Journal says:

It is recommended for its extreme simplicity of construction, great strength, and consequent

of construction, groat strength, and consequent durability and cheapness of repair.—
There is no stuffing box—the pressure being held by a cup packing, like that upon the working piston, working in a cylinder, fitted for the purpose within the upper air chamber—which we think a great improvement, as stuffing is so liable to be deranged and leak production. is so liable to be deranged, and leak under strong pressure, to say nothing of the loss by friction incident thereto. It has also two air-chambers: thus the action of the valve is cushioned upon both sides by air-preventing water-hammer and vacum thump. The valves are very accessible, and simply and cheaply hibited in competition with other standard Machines. We invite all persons in search of an instrument to execute any kind of Sewing an instrument to execute any kind of Sewing

> GT. NECK, L. I., 1860. I have used this pump for one winter, exposed to the North-West wind coming over Long Island Sound, being the coldest possible exposure, and at no time did it freeze, nor were we unable at any time to pump water with great ease.

> She undersigned, having to use "West's Improved Pumps," cheerfully recommend them as simple, durable and powerful in raising and throwing water, and for their ease of action, security against frost, and low price, we believe them superior to all others.

WARREN LELAND, Met. Hotel, New York. J. W POMEROY, Yonkers, N. Y. JNO. MESSEREAU, N. Y. DOMINICK LAWRENCE, Westchester.

minute. We lifted in three and a half hours all the water in the shaft, which measures sever by twelve feet and 30 feet deep, and it was full when we commenced. It answers our expectations in every respect, and our workmen are highly pleased with it. It will do great service with but trifling expense for repairs. Yours, respectfully,

BURR HIGG We have plenty more such certificates, but think these are enough.

THE CITY MILLS!

WHITE CLOUD, KANSAS.

Gents—The pump which I ordered for our Mine is received and put to work in our underlay shaft, which we are sinking, We find that one man will with ease lift 50 gallons per minute. We lifted in three and a half hours all the water in the about the same of th

"While We Live Let Us Live!"

THE CELESRATED WHITE CLOUD CITY MILLS have been lately repaired and supplied with the latest improvements, and can now furnish the public with the very choicest flour that can be produced in the Valley of the Missouri.

The Millers are men of experience, and have always had the reputation of making flour of the vary best heart.

the very best brands. Flour will be exchanged at the Mills for wheat, at all times; but when a customer require

Flour will be exchanged at the Mills for wheat, at all times; but when a customer requires his own wheat ground, he will be accommodated at the earliest opportunity, on reasonable terms. The highest market price will always be paid at the Mills, for both Spring and Fall wheat. By exchanging wheat for flour, our customers will save much time, and have no trouble about misplaced sacks. It is the best system, both for the proprietors and the farmers; and when any one is dissatisfied with the quality of the flour, he can return it and have it exchanged.

Any person storing wheat in the large granaries connected with the Mill, can do so at any time, free of charge, and be entitled, if they sell to the proprietors, to any rise in the price of wheat, up to the first of May in every year.

Farmers who have not convenient barns, can store wheat for their own family use in the Mill, at threshing season, and at any time can throw their sacks in their wagons, and come to mill and get flour fresh from the burrs, without having to clean up a small grist, or run the risk of having wheat destroyed by vermin, or storms of rain and snow, when exposed in rail pendermers have barns, and after their wheat is threshed, they have not a proper place to store it in, and are compelled to put it out of doors in a rail pen, or under a straw heap, where it is exposed to rain and damp, and never can be ground into good flour afterwards.

The wheat taken immediately from the threshing floor and stored in the Mill, is kept dry and in good order, and therefore makes superior flour.

Your every wish to satisfy:
We'll store your wheat and keep it dry,
And grind it into flour.
'Twill please your wife to have the best
Of flour, that bakes with little yeast— Bring us your wheat, and we will try When wives are happy, homes are blest;
And it is in your power
To save expense, and loss of time—
Embracing all the chances,
To keep a smiling wife at home,
